

ADAM CHAMBERLAIN

Software Engineer

SUMMARY

Creative, detail-oriented, software engineer with a deep interest in building useful full stack web applications for enterprises and people. Proven track record of creating and implementing successful front and back end web applications. Looking to bring my skills to a tech company with global reach.

WORK EXPERIENCE

Software Engineer at 100devs, Remote

March 2025 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management

Recent Projects:

To-Do List (Fullstack Web App) – User can submit an entry of things to do using a prompt. They can add, mark complete, mark incomplete, or delete what is on the list. They can toggle between complete and incomplete.

Only Friends (Fullstack Web App) – A social media site utilizing authentication where users can login to their profile, upload photos, create posts, and add comments.

100Hours Project – Arrowhead ID (Full Stack web App) - A full stack web app where users can upload pictures of arrowheads and get an identification of type and age.

Other Projects: StarGazers Society, BookHub, MVC Lecture, Cocktail Database, On-demand background color changer for Partnered Twitch streamer, and many more.

Full Stack Web Developer at Adam's Consulting | Erie, PA

October 2022— Present

Created full stack web applications and static websites for different clients across small and medium size businesses. Also, consulted on SEO and social media strategy. Some clients included:

Carl Hall Well Drilling, LLC

French Creek Archaeology Society

CNC Programmer at HyTech Tool and Design | Edinboro, PA

September 2015 — Present
